SUMMARY

Motivated full-stack developer and NJIT Web & Information Systems student with hands-on experience in HTML, CSS, JavaScript, and React, and growing proficiency in Python and Node.js. Passionate about building AI-powered web applications that drive real user value. Eager to contribute to product engineering teams at the intersection of machine learning, personalization, and scalable software — bringing a customer-obsessed mindset, strong attention to detail, and a builder's mentality to every project.

EDUCATION

B.S. in Web & Information Systems | New Jersey Institute of Technology (NJIT), Newark, NJ *Expected May 2027*
Relevant Coursework: Web Development, Mobile Application Development, Database Management, UX/UI Design, Information Systems Analysis

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML, CSS, Python, TypeScript (learning)

Frameworks & Libraries: React, Node.js, Express.js, Playwright, Vitest

AI & Data Tools: OpenAI API, Prompt Engineering, Scikit-Learn, External API Integration

Cloud & DevOps: Git & GitHub, Docker (learning), Google Cloud Platform (learning)

Tools & Other: Microsoft 365, Figma (basic), Agile workflows, Bilingual — English & Spanish (Fluent)

PROJECTS

AI-Powered Recommendation Web App | NJIT Coursework, 2024-2026

- Built a full-stack web application using React and Node.js that leverages the Anthropic API to generate personalized content based on user input.
- Designed responsive UI components with CSS Flexbox/Grid, implementing clean UX patterns focused on user engagement and intuitive navigation.

Personal Portfolio & UX Case Studies | Independent Project, 2026 – Present

- Developed and deployed a personal portfolio site showcasing web development projects and interactive components.
- Applied accessibility best practices (WCAG standards) and mobile-first responsive design to optimize cross-device experience.

WORK EXPERIENCE

Sr. Waiter / Server | Ramen Gami, Newark, NJ

Sep 2023 – Present

- Onboarded and trained new team members on service standards, POS systems, and operational procedures — demonstrating the ability to communicate complex workflows clearly.
- Delivered data-informed service by memorizing detailed menu specifications (allergens, substitutions, daily specials) to provide accurate, personalized recommendations to each customer.
- Maintained high customer satisfaction through active listening, real-time problem solving, and adapting communication style to individual guest needs.
- Processed transactions accurately and efficiently in a high-volume environment, reinforcing attention to detail and reliability under pressure.
